Release nuovo sito HR

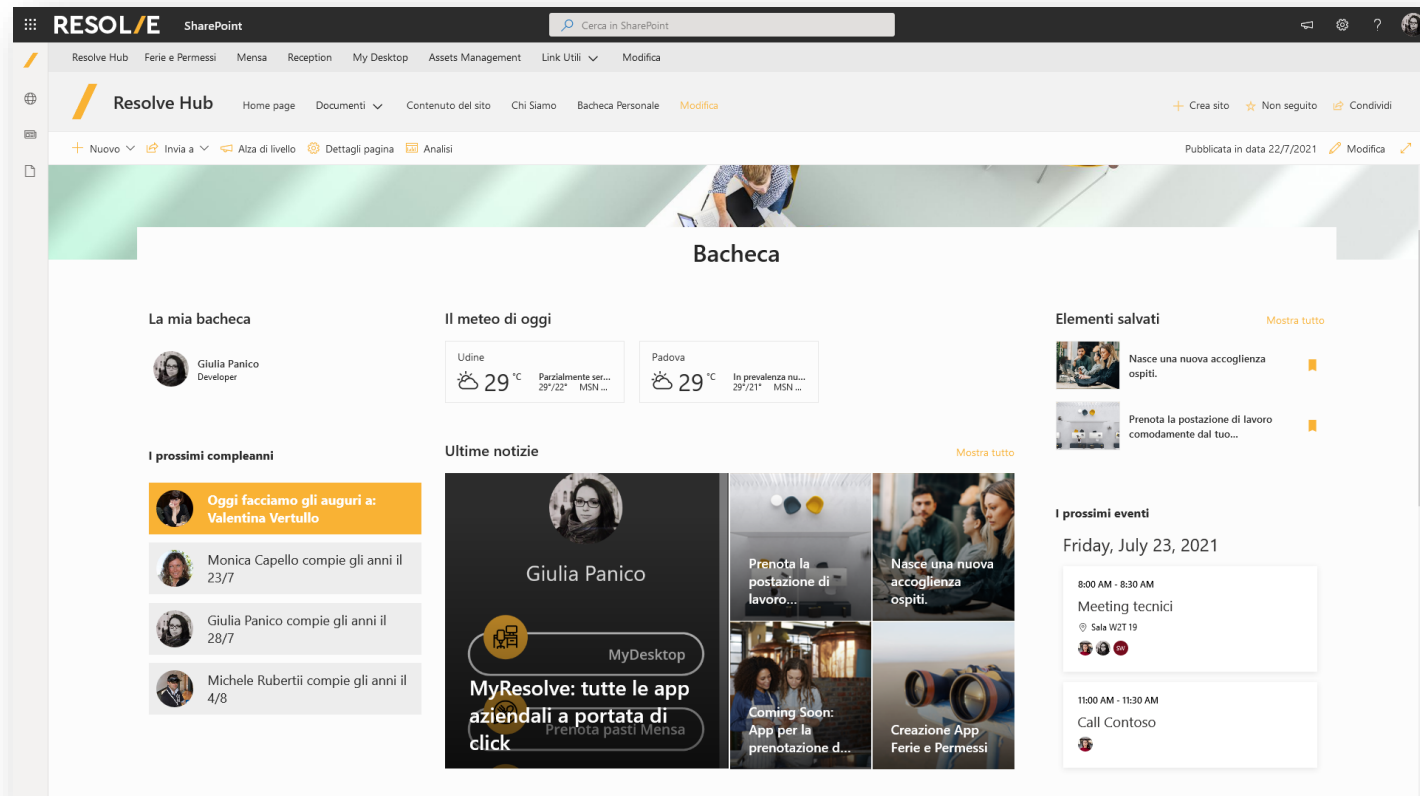

| Team Sites

Uno spazio sicuro dedicato ai team o a progetti.

Crea, salva e condividi file.

Gestisci gli accessi al sito con livelli di permesso personalizzati.

/ SharePoint Online

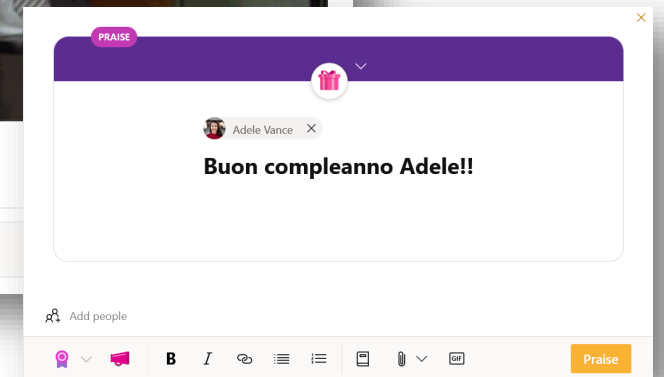

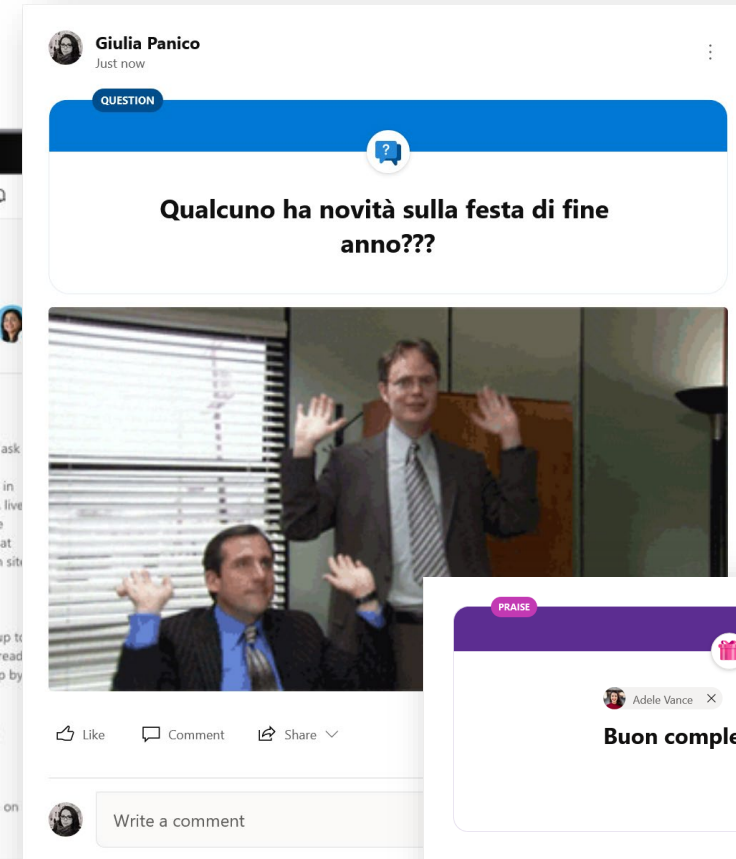

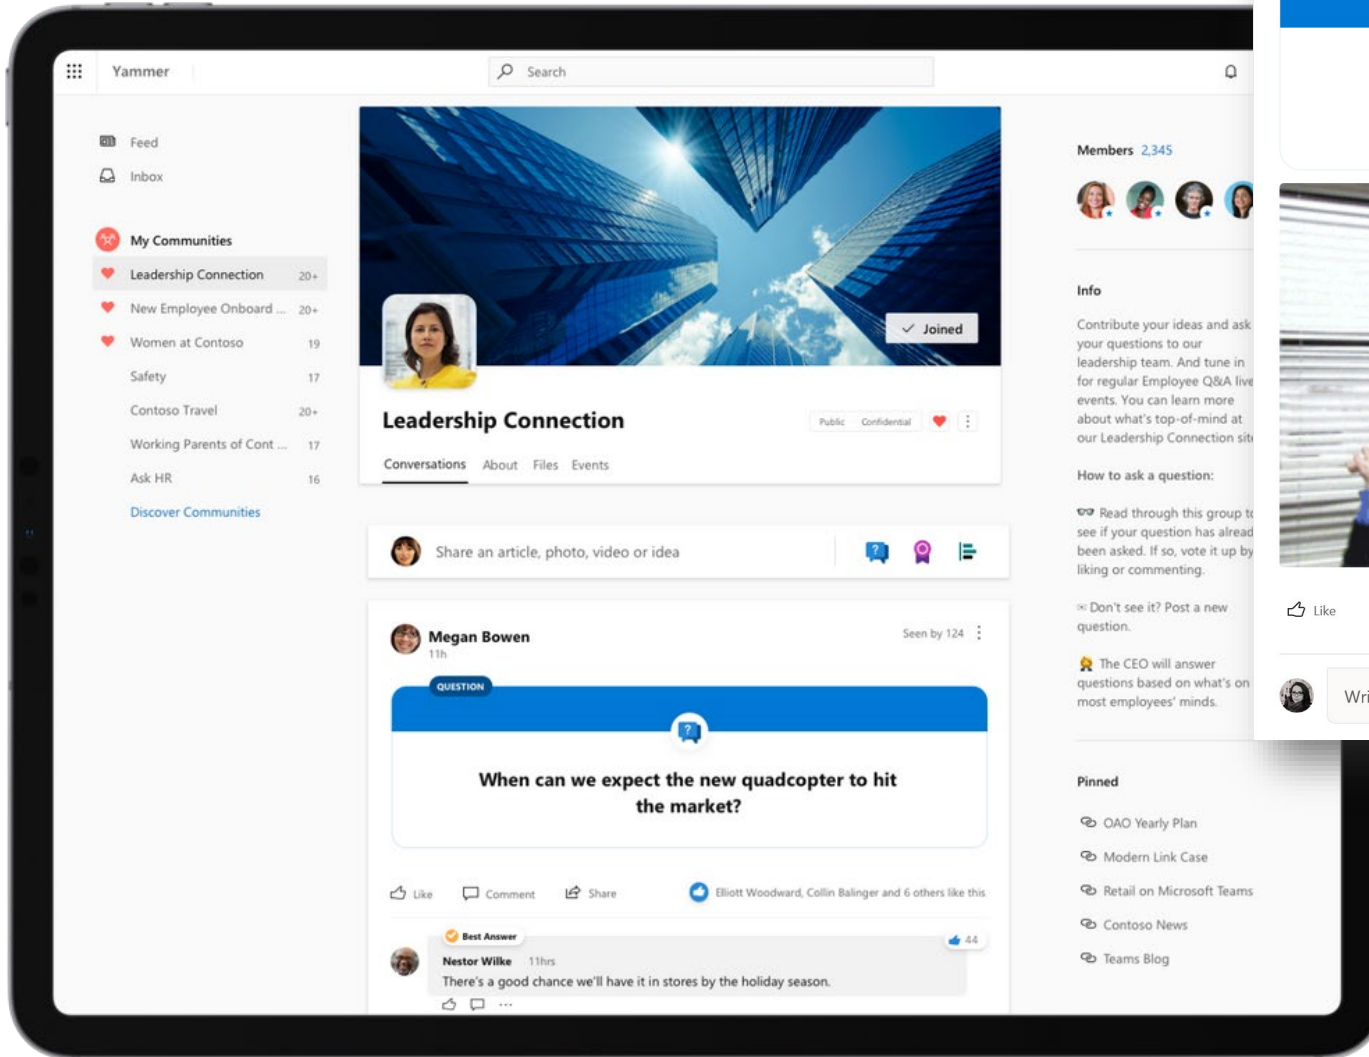

Un'esperienza personalizzata

Crea spazi personalizzati per gli utenti all'interno della tua intranet.

Utilizza le **webpart** per creare una bacheca personale e un'esperienza unica.

Abilita l'**audience targeting** per condividere o nascondere contenuti a gruppi o ad utenti specifici o per creare contenuti in evidenza ritagliati addosso agli utenti.

/ Yammer

03. APP AZIENDALI

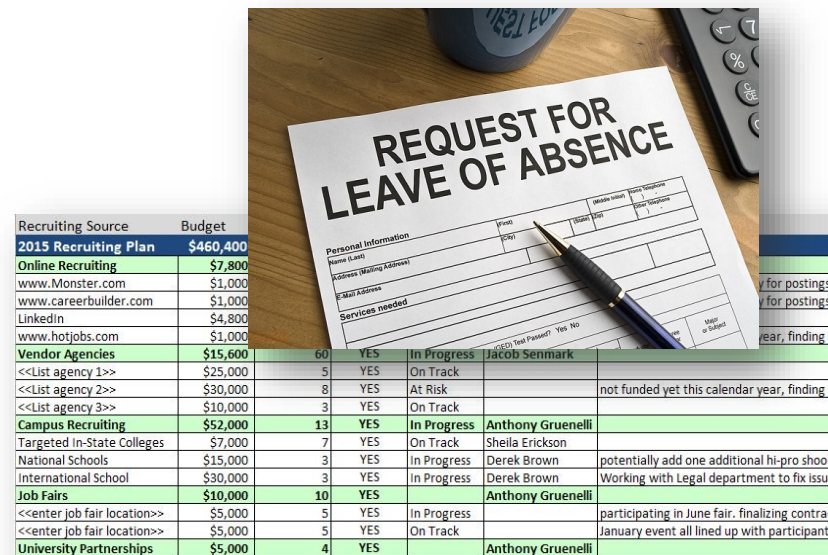

**Offrire servizi ai
dipendenti grazie alla
Power Platform**

/ Come gestite i processi aziendali?

Diversi tipo di supporto:
moduli cartacei da
compilare, fogli Excel,
scambi di email

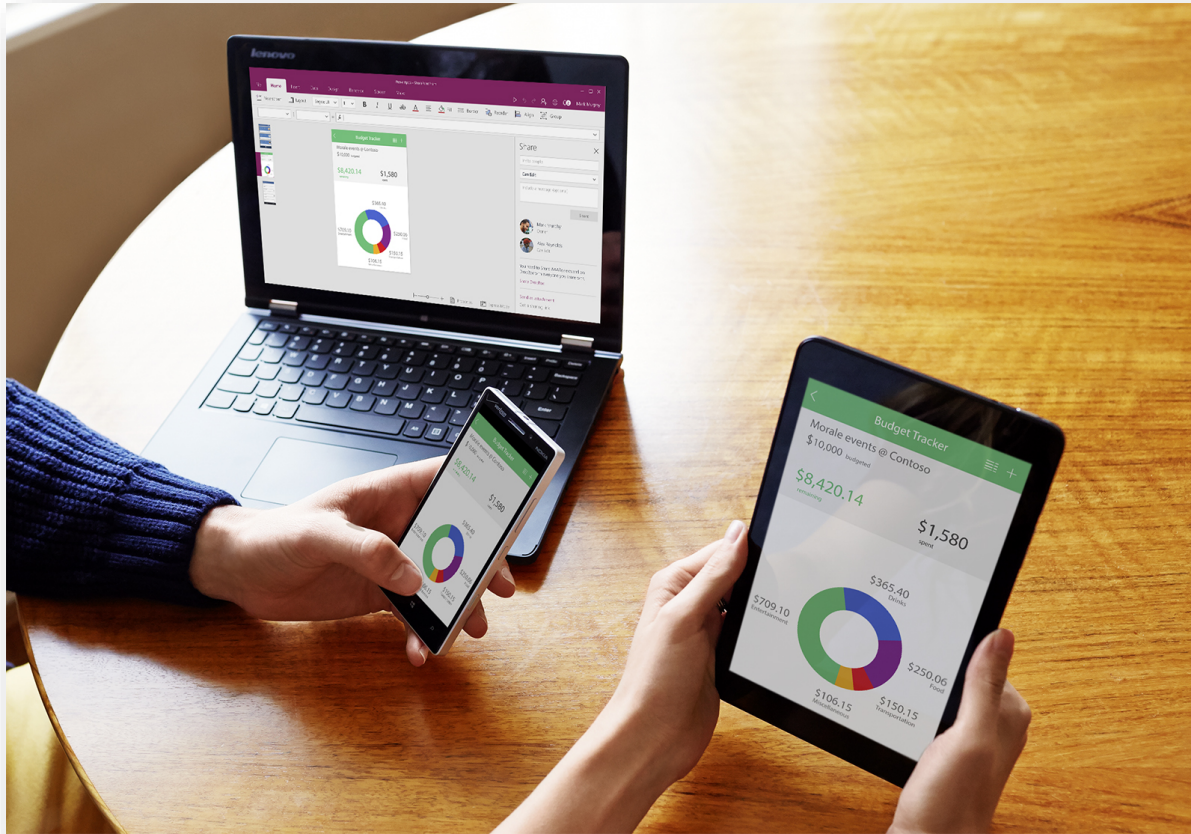

Disordine, dati mal
organizzati

Alto rischio di errore e
dimenticanze

Gran dispendio di
tempo (e denaro)

/ Servizi al dipendente

Processi automatizzati
Servizi cross-platform
Veloce e preciso
Self-help

Servizi più richiesti:

- Richieste ferie e permessi
- Prenotazioni delle postazioni di lavoro
- Ordinazione dei pasti mensa
- Prenotazione di sale per meeting
- Ricerca di informazioni su busta paga, nota spese ecc...

/ Cos'è la Power Platform

Develop low-code apps with PowerApps

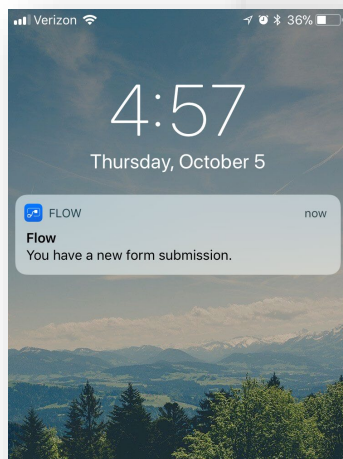

The image displays the Microsoft PowerApps development environment. The main canvas shows a mobile app screen titled 'REPORT DETAILS' with a teal header. The screen content includes a date 'Today Thursday, April 12, 2018', a 'Track time for service' timer at '00:00:00', and a 'Room 155 Clean Room' section with a 'Pending' status. Below this are toggle switches for 'Bathroom Sink', 'Toilet', 'Toiletries Restocked', and 'Shower/Tub', each with a 'Not Clean' label. There is also a 'Towels Left in Room' input field set to '1' and a 'Bathroom Photo' image. At the bottom are 'Completed' and 'Delayed' buttons. On the left, a 'Screens' pane shows a list of app screens: 'Welcome', 'Reports View', and 'Reports Details'. On the right, a properties panel for a 'TOGGLE Toggle1' control is open, showing settings for 'Default' (Off), 'Show label' (On), 'Label position' (Right), 'Display mode' (Edit), 'Visible' (On), and 'Position'. A color picker is also visible, showing a gradient from red to purple with a selected color of #D61A5A.

Work less, do more with Power Automate

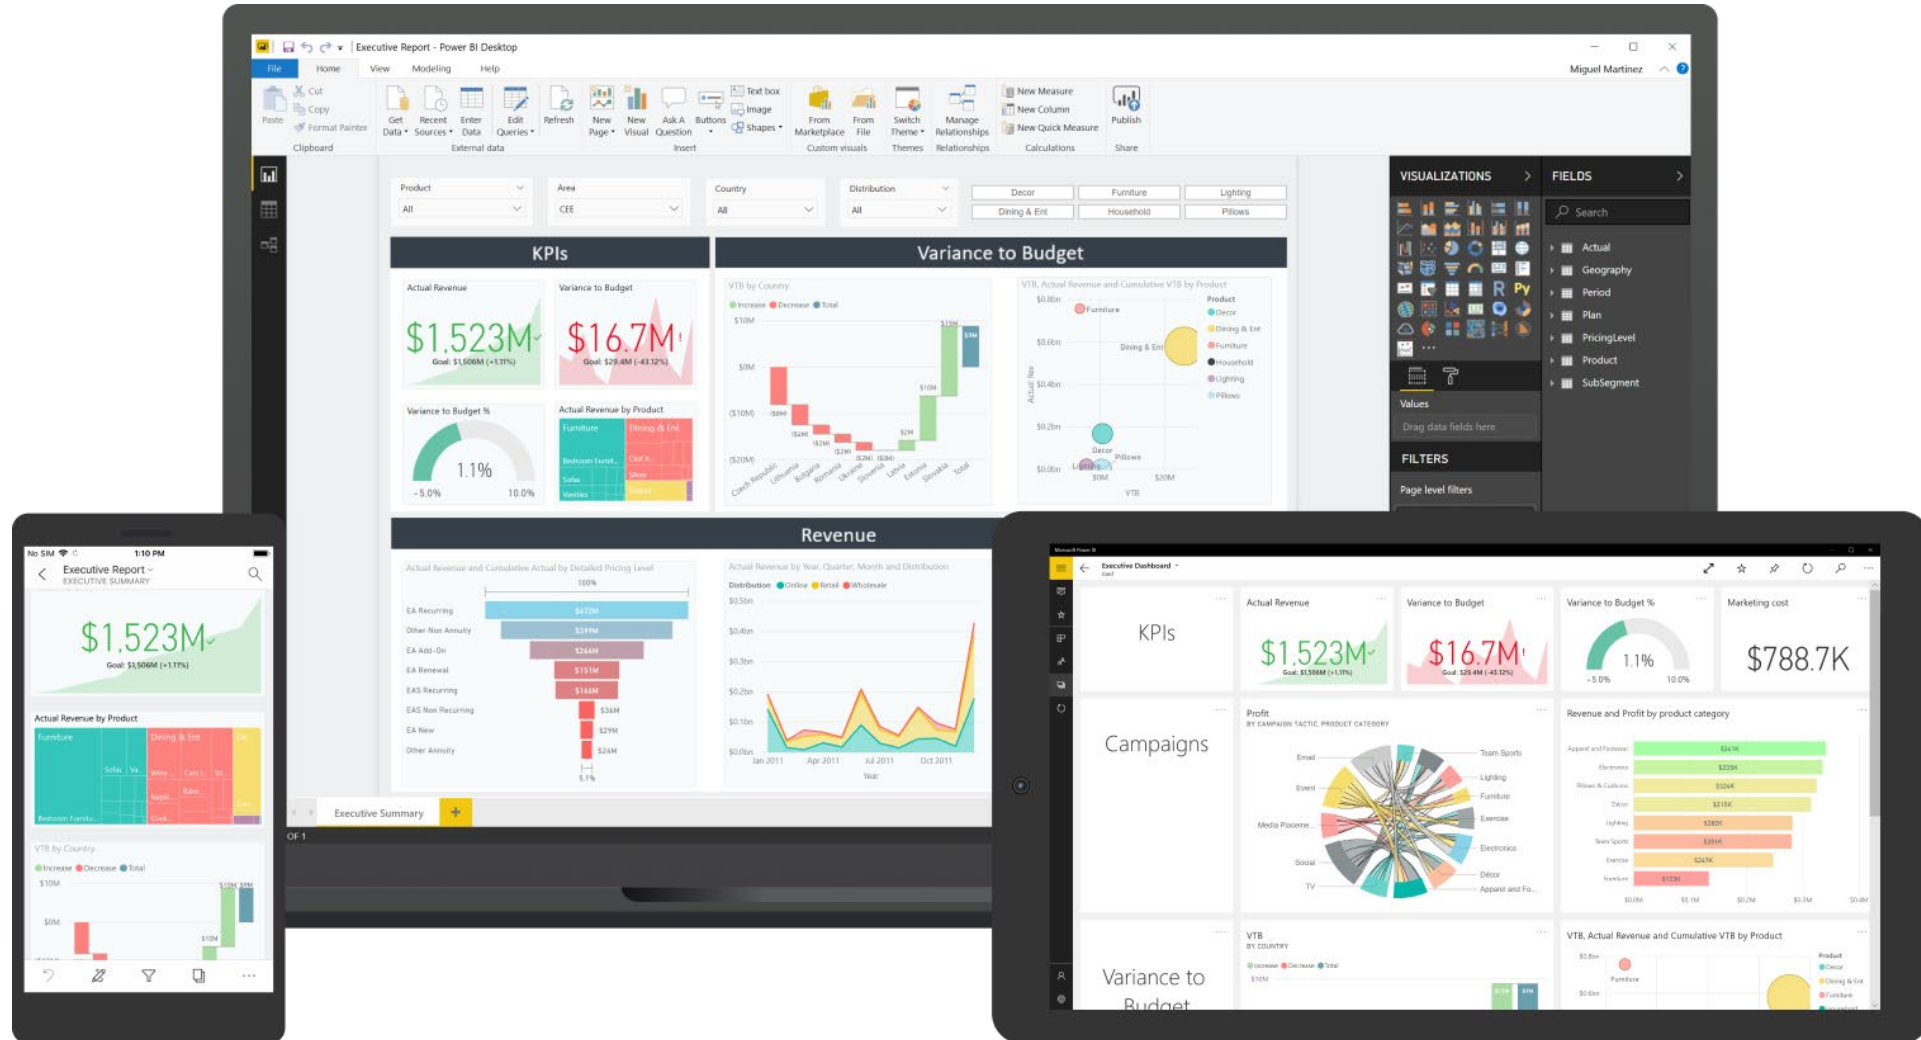

Microsoft Flow helps you
work smarter by
automating workflow across
your apps and services.

The screenshot displays the Power Automate web interface. The left sidebar shows navigation options: Home, Action items, My flows, Create, Templates, Connectors, Data, Monitor, AI Builder, Process advisor, Solutions, and Learn. The main workspace shows a workflow titled "When a new file is created, detect text with AI Builder, and import data into legacy system". The workflow steps are: "When a file is created", "Recognize text in an image", and "Run a flow built with Power Automate Desktop". The "Run a flow built with Power Automate Desktop" step is expanded, showing "Import data from modern system in the cloud to legacy system on machine" with a "Desktop flow" of "Import data into legacy system then notify Team" and a "Run Mode" of "Unattended - Runs in the background without signing in". Below this is a "Condition" step with a "Choose a value" field, a "is equal to" operator, and another "Choose a value" field. The "If yes" branch leads to "Post a message as the Flow bot to a channel (Preview)" with "Team" set to "Company", "Channel" set to "Alerts", and a "Message" of "File name X has successfully been imported into the legacy system". The "If no" branch leads to "Send email with options" with "To" set to "email", "Subject" set to "Your input is required", and "User Options" set to "Choice1, Choice2, Choice3".

RESOL/E 

Come possiamo aiutarti?

/ MALATTIA

/ BUSTA PAGA

/ NOTA SPESE

/ FERIE/PERMESSI

/ COVID-19

Qual è la differenza tra permessi e ferie?
Cosa si calcola in giorni e cosa in ore? Come
capiamo quanti ne abbiamo accumulati? I
permessi possono trasformarsi in ferie (e
viceversa)?

Quando possiamo usare i ROL (permessi) e
come funziona l'accumulo?

Accumuliamo le ferie dell'anno precedente,
se non godute? O vengono liquidate a
prescindere?

RESOL/E

Happy Monday! Let's make today count.

Give your mind a break

Just 10 days of Headspace has been shown to reduce stress by up to 14%.

Relax your mind anytime during your workday.

Start meditating

Focus plan

3 days

with booked focus time this week

We recommend one focus block per day. Great work!

Plan your focus time

Mentoring time

30 min

of upcoming one-on-one time with Naomi this month

Research has shown that managers with regular 1:1 time with each team member receive significantly higher engagement scores.

Review all one-on-ones

Virtual Commute

Only a few minutes away from ending the day!

Close out your tasks

Reflection

Headspace guided meditation

End your day

How are you feeling?

Taking a moment to reflect can help you better understand your emotions, strengths, weaknesses and driving factors.

SOAR

Alternate name: Sustainable Operations and Reliability
From Mona Kane, Mon at 9:17am

Starting in CY 2021, Relecloud will focus on new verticals for our commercial drones. Project SOAR leads the way in sustainability with the latest innovations in drone technologies to enable our customers to have better agricultural businesses. The future of farming will rely upon new technology to improve agricultural output and meet the growing global demand for food. The Mark 8 UAV with high-resolution cameras and next generation sensors can be flown over thousands of acres/hectares of farms and gather data. This data can be used to map water levels, crop stress, pest damage, and per hectare yield. Drone imagery assists the farm manager to monitor without the need of surveying the farm manually and laboriously.
